CASE STUDY

Transforming Cyber Security Careers with MSSPs

Customer Profile

Cyro Cyber is a collective of some of the UK's most experienced and savvy cyber security, information assurance, data protection, IT governance and compliance experts. Recognised as experts in strategic defence and the implementation of cyber security counter measures, their solutions range from Governance, Risk & Compliance, Offensive Security Testing, Security Architecture and cyber security consulting.

Identifying Key Challenges

The cyber security industry faces a major talent shortage, with high demand for skilled professionals. Bridging this gap requires equal access to opportunities for diverse individuals and addressing the need for on-demand, certified talent. Many new learners struggle with a lack of industry support and practical experience. The absence of mentorship and relevant hands-on experience has made it harder to bridge the gap between theoretical knowledge and practical skills in cyber security.

“At Cyro, we pride ourselves on attracting the best talent available to deliver exemplary cyber security services to customers. Partnered with CAPSLOCK, we’re working to ensure that our workforce is rich and diverse, offering expertise, energy and excellence.”

–Shannon Simpson,
CEO, Cyro Cyber

Get in touch today!

CAPSLOCK Deploy

We identify outstanding CAPSLOCK graduates and deploy them into your team on a contract basis, after which they receive ongoing support and can be converted to full-time employees at no extra cost.

CAPSLOCK Reskill

Unlock the potential in your existing workforce by reskilling current employees into cyber security roles. Retain valuable and loyal employees, increase cyber talent retention, and consider an alternative to redundancy.
